

Special Issue

Friendly Residential Environments for Ageing in Place with Autonomy and Independence

Message from the Guest Editors

We have been invited to organize a Special Issue on Friendly Residential Environments for Aging in Place with Autonomy and Independence in the *International Journal of Environmental Research and Public Health* (Impact Factor: 2.849 in 2019). More detailed information can be found in the journal site <https://www.mdpi.com/journal/ijerph>. The issue will focus on theoretical and applied subjects about residential environments and their connections with personal and contextual factors, quality of life, and wellbeing as people age. Conceptual approaches, literature reviews, and methodological studies deserve a special mention, as well as the incorporation of new technologies, the management of health emergencies (COVID-19 pandemic), and climatic risks, which are of valuable interest to better understand the environmental dimensions of aging at home/in place. From multidisciplinary epigenetic approaches and environmental gerontology, studies on implications of the aging environments on therapeutic strategies will be accepted.

Guest Editors

Dr. Fermina Rojo-Pérez

Dr. Gloria Fernández-Mayoralas

Dr. Diego Sánchez-González

Deadline for manuscript submissions

closed (28 October 2022)

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
