# **Special Issue**

# Health Promotion Using New Technology

# Message from the Guest Editors

The aim of this Special Issue is to explore the latest research in technological innovation across the health-promotion spectrum. It will provide an overview of how technological disruptors have revolutionized health promotion over time, identify barriers and enablers for existing technology-delivered health-promotion programs, identify the next wave of technological innovation for health promotion, and provide a scaffold for future health promotion programs that intend to use technology-supported mechanisms for delivery and evaluation.

# **About the Journal**

# Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

### Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation, Richard N. Dixon Research Center, Morgan State University, Baltimore, MD 21251. USA

## **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.
