

Special Issue

Phytochemicals in the Diet: Health Implications, Safety Issues, and Molecular Mechanisms

Message from the Guest Editors

This Special Issue seeks to collect state-of-the-art original research focusing on the implications of phytochemicals in the diet, including clinical, epidemiological, in vivo, and in vitro studies underlining the impact of phytochemicals on health and disease. As our knowledge about phytochemicals is continuously progressing, this Special Issue will collect the most updated insights into the effects of dietary phytochemicals on health. We welcome your contributions in the form of original research articles, reviews, short communications, systematic reviews, or meta-analyses covering topics such as:

- Beneficial and adverse effects of dietary phytochemicals;
- Phytochemicals as a nutraceutical for the prevention of disease;
- Toxicology and safety aspects of the consumption of specific phytochemicals;
- Absorption, biotransformation, and metabolism of phytochemicals;
- Molecular mechanisms of the action of different phytochemicals;
- Trends in the consumption of phytochemicals as nutraceuticals and functional foods;
- Extraction and analysis of phytochemicals in food and biological samples.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
