

Special Issue

Satisfaction, Stress, and Mental Health in the Tourism/Hospitality Industry

Message from the Guest Editor

Satisfaction and stress are directly related to mental health, and, due to the human resource-based characteristics of the tourism/hospitality industry, their management and control have been a difficult issue from the perspective of employees and customers.

Thus, this Special Issue focuses on two critical issues in the tourism/hospitality industry: (1) employee work stress, job satisfaction, and mental health, as well as (2) customers' satisfaction level, dissatisfaction-related stress, and mental health, also covering the quality of life, happiness, turnover intention, and behavioral intentions in the tourism/hospitality industry.

Guest Editor

Prof. Dr. Sunghyup Sean Hyun

School of Tourism, Hanyang University, Seoul 04763, Republic of Korea

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
