

## Special Issue

# Rare Diseases Epidemiology Research: The State-of-the-Art and Future Perspectives

### Message from the Guest Editor

This special issue of International Journal of Environmental Research and Public Health (IJERPH) aim to present:

- excellent research activities working on a particular rare disease, to improve epidemiology, to understand and facilitate diagnosis, and develop new therapies for rare diseases
- model of high-quality, cost-effective healthcare, including prevention
- relevant source of information system available for rare diseases (example registries, shared knowledge platforms, research network)
- key rare diseases policy documents and legislation
- tools, standards, guidelines and data sharing that adheres to the interoperability principles
- case study of active involvement of patient as partner and as expert in epidemiological research studies.

Papers addressing these topics are invited for this Special Issue, with the overall aim not only map the state of art but also outline likely future developments in this rapidly developing field of complex medicine, such as rare diseases.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
