

Special Issue

Review in Environment and Applied Ecology

Message from the Guest Editors

This Special Issue will publish a thematic series of high-quality review articles on key topics in Environment and Applied Ecology. It will present historical and contemporary reviews to emphasize new opportunities for Environment and Applied Ecology, to translate research into recommendations for best practices in the real Environment and to promote discussion in the Environment and Applied Ecology. Reviews may concern bibliometric and content analysis methods, international and national research progress on ecological thresholds, eco-efficiency analysis as well as challenges and opportunities of the interaction between Environment and Applied Ecology. The methodology for assessing the ecological interaction of complex socio-technical systems at all stages of their life cycle with the environment can be the starting point for important review papers in this Special Issue. Principles of ecologically balanced and socially oriented development of mineral resources could also be considered. Economic implications, health impact and legislative aspects are important topics that may also be considered in the proposed papers.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
