

Special Issue

Workplace Health and Wellbeing 2019

Message from the Guest Editor

This Special Issue in the International Journal of Environmental Research and Public Health is devoted to recent findings on “Workplace Health and Wellbeing”. This Issue will make a substantial contribution to the understanding of contemporary workplace health and wellbeing issues; the influence of health and wellbeing on individual and organisational outcomes; and the impact of workplace strategies, policies, and interventions on individuals and employers. A wide range of topics will be included in this Issue, related to but not limited to the mental and physical wellbeing of employees and particular occupational groups; psychosocial risk factors; the implementation and effectiveness of workplace wellness programmes; the engagement of line managers in workplace health initiatives, promoting healthy lifestyles at work; health screening interventions in workplace settings; the prevention or management of chronic conditions at work; the impact of health on the capacity of employees to work; studies around wellbeing and recruitment and/or retention; and the impact of workplace interventions on work engagement work performance and/or productivity.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
