

Special Issue

The Health and Wellbeing of Indigenous and Tribal Peoples around the Globe

Message from the Guest Editors

This Special Issue is intended to showcase best practice in research across a broad range of topic areas relating to the health and wellbeing of Indigenous and Tribal peoples around the world, with a particular emphasis on work that goes beyond mere description and seeks to implement and evaluate positive change at a local, regional, national or global level. We welcome manuscripts reporting research conducted by, with, and for the benefit of, Indigenous and Tribal peoples. Papers should reflect the values of respect, reciprocity and partnership and address the priorities, needs and aspirations of Indigenous and Tribal peoples. We are particularly interested in strengths-based approaches, Indigenist research methodologies, multi-disciplinary research, and research investigating structural and system level issues (including but not limited to racism and discrimination). While we welcome submissions about Indigenous and Tribal peoples in the lands now known as Australia, Canada, New Zealand and the US, we strongly encourage work relating to Indigenous and Tribal peoples in other parts of the world.

Guest Editors

Prof. Dr. Joan Cunningham

Dr. Abbey Diaz

Dr. Kalinda Griffiths

Dr. Lisa Whop

Deadline for manuscript submissions

closed (30 June 2021)

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
