

Special Issue

Advances in Restorative Environments Research: People, Contexts, and Processes

Message from the Guest Editors

Issues on restoration and healthy outcomes for different groups of people, restoration and healthy outcomes in different typologies of restorative environments and relevant psychological mechanisms of psychological restoration, health, and well-being still need to be understood in restorative environments research. Papers addressing these issues are welcome for this Special Issue of IJERPH, particularly when proposing sharp and cutting-edge studies on relevant mediators and moderators of psychological restoration and related healthy outcomes.

Guest Editors

Dr. Massimiliano Scopelliti

Department of Human Studies, LUMSA University, and Centre for Interuniversity Research on Environmental Psychology (CIRPA), Rome, Italy

Dr. Ferdinando Fornara

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Editor-in-Chief
