

Special Issue

Place-Based Research in GIScience and Geoinformatics

Message from the Guest Editors

This Special Issue invites original contributions that tackle the handling of place and address the meaning of place in GIScience, Geoinformatics and neighboring disciplines. Research may contribute to the following overarching questions: How can place be adequately addressed and handled with established or new GIScience theory and methods? What methodologies from other disciplines (e.g., computer science, linguistics, etc.) can be considered in order to sufficiently account for place-based analyses? We welcome submissions from diverse disciplines, including Environmental Psychology, Linguistics, Urban Planning, Spatial Economics, Geographic Information Science, Spatial Cognition, Human–Computer Interaction, Data Science, Smart City, Big Data, Health and Place, and others.

Guest Editors

Prof. Dr. Thomas Blaschke

Interfaculty Department of Geoinformatics - Z GIS, University of Salzburg, A-5020 Salzburg, Austria

Dr. Song Gao

Department of Geography, University of Wisconsin, Madison, WI 53796, USA

Deadline for manuscript submissions

closed (31 August 2018)

About the Journal

Message from the Editor-in-Chief

The *ISPRS International Journal of Geo-Information* invites you to submit research articles, reviews, and reports covering topics of the whole domain of geo-information. Although the journal was only founded in 2012, it has already achieved wide recognition in the scientific community. We are proud that since April 2015, our journal is indexed by the SCIE of the Web of Science. As Editor-in-Chief, I encourage you to consider *IJGI* for your scientific papers and would be pleased to welcome you as authors.

Editor-in-Chief

Prof. Dr. Wolfgang Kainz

Cartography and Geographic Information Science, Department of
Geography and Regional Research, University of Vienna,
Universitätsstr. 7, A-1010 Vienna, Austria

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), GeoRef, PubAg, dblp, Astrophysics Data System, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Remote Sensing) / CiteScore - Q1 (Geography, Planning and Development)
