Histopathological and Cytological Biomarkers for Breast and Gynecologic Cancers

Message from the Guest Editors

Breast and gynecologic malignancies are major causes of morbidity and mortality worldwide. To diagnose them, histopathological or cytopathological sampling is performed, and selected biomarkers related to diagnosis, prognosis, and therapy are routinely evaluated. There has been tremendous progress in the fields of breast and gynecological cancers, which is highlighted by the presence of well-defined molecular subtypes and tailored therapies. However, discovering new biomarkers would enhance the management of these patients. This Special Issue welcomes original studies, reviews, and short communications, aiming to address novel biomarkers assessed in tissue or cytological material of patients with breast or gynecologic malignancies. Large-scale studies evaluating well-established rather than candidate biomarkers or presenting negative findings are also welcome.

Guest Editors

Dr. Ilias P. Nikas

Medical School, University of Cyprus, 2029 Nicosia, Cyprus

Dr. Ioannis Pateras

Second Department of Pathology, Medical School, National and Kapodistrian University of Athens, Attikon University Hospital, 12462 Athens, Greece

Prof. Dr. Yosep Chong

Department of Hospital Pathology, The Catholic University of Korea College of Medicine, Seoul 06591, Republic of Korea

Deadline for manuscript submissions

20 May 2025

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Inorganic Chemistry)
