Advances in Molecular Pathophysiology of Diabetes, Hypertension and Cardiovascular Diseases

Message from the Guest Editor

Diabetes, hypertension and cardiovascular diseases represent the leading cause of death worldwide. The importance and the prevalence of diabetes, hypertension and cardiovascular diseases are growing also due to the aging population with more and more comorbidities. The advances in the understanding of molecular pathophysiology are crucial to develop new treatment strategies for these diseases. In this Special Issue, we will discuss known and novel molecular pathways that impact in the occurrence and in the treatment of diabetes, hypertension and cardiovascular diseases, and that can also represent novel molecular targets.

Guest Editor

Dr. Alessandro Durante

Head of Clinical and Interventional Cardiology Unit, Policlinico San Marco, 24040 Zingonia, Italy

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
