

## Special Issue

# Epigenomic Insights into Diabetes and Related Complications

### Message from the Guest Editor

Diabetes is a complex metabolic condition that is influenced by both genetic and environmental factors. Recent advances have shed light on the role of epigenetics in the pathogenesis of diabetes and its complications. This special issue explores new insights into how epigenetic changes impact the onset, progression, and management of diabetes and its associated complications, such as cardiovascular disease, nephropathy, and retinopathy. We invite original research articles, reviews, and perspectives on various aspects of epigenomics (DNA methylation, histone modifications, non-coding RNAs, and chromatin remodeling) in relation to diabetes pathophysiology. Key topics include the identification of epigenetic biomarkers, the influence of environmental factors on the epigenome, therapeutic strategies targeting epigenetic alterations, and the interaction between genetic and epigenetic factors in diabetes. Overall, this special issue aims to deepen our understanding of the epigenomic landscape in diabetes and contribute to improved diagnostic and therapeutic approaches.

### Guest Editor

Dr. Makrina Karaglani

1. Laboratory of Pharmacology, Department of Medicine, Democritus University of Thrace, 68100 Alexandroupolis, Greece
2. Institute of Agri-Food and Life Sciences, University Research and Innovation Centre, Hellenic Mediterranean University, 71003 Heraklion, Greece

### Deadline for manuscript submissions

28 February 2025

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle  
Marche, Via Ranieri 65, 60100 Ancona, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
