Advances in Neurodevelopmental-Related Disorders

Message from the Guest Editor

Nervous system development entails different tightly-regulated processes, from neurogenesis and cell migration, which are key to developing a proper cytoarchitecture, to subsequent neuronal differentiation, axon pathfinding, and synaptogenesis, which are needed to set up a functional synaptic network. All these events are tightly orchestrated by gradients of morphogenetic factors and soluble and non-soluble cues, which support the development of a functional nervous system through subsequent signal transduction pathways regulating different cellular processes such as gene expression or cytoskeleton dynamics. Hence, any subtle disturbance in any of these elements/processes, either derived from genetic or environment-driven defects, may lead to mild or severe neurological and psychiatric conditions. This Special Issue aims to collect contributions that highlight the diagnosis, pathogenesis, and/or therapeutics of neurodevelopmental disorders.

Guest Editor

Dr. Joana M. Marques

Center for Neuroscience and Cell Biology, University of Coimbra, 3004-531 Coimbra, Portugal

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Inorganic Chemistry)
