Current Trends of Natural Bioactive Molecules in Regulation of Cell Signaling Pathways in Different Diseases

Message from the Guest Editors

It is widely accepted that a high intake of natural bioactive molecules is associated with a decreased risk of chronic disease. According to in vitro and in vivo studies, bioactive molecules possess therapeutic potential in chronic diseases by modulating different signaling pathways. However, the molecular mechanisms behind these activities are not quite clear yet. In this Special Issue, the latest findings on the health-promoting effects of bioactive molecules, such as anti-oxidative stress, anti-cancer activity, anti-inflammatory activity, and neuroprotective activity, will be summarized. Furthermore, the cell signaling pathways (such as PI3K/Akt/mTOR, JAK/STAT, STAT3, MAPK, TNF, Notch, AMPK, Wnt/ β -Catenin, mTOR, TRAIL, Fas, NF- κ B, etc.) of bioactive molecules in exerting health-promoting effects will be discussed. Lastly, the underlying molecular mechanisms of how these bioactive molecules regulate their health-promoting effects will be elucidated.

Guest Editors

Prof. Dr. Baojun Xu

Food Science and Technology Program, Department of Life Sciences, Beijing Normal University-Hong Kong Baptist University United International College, Zhuhai 519087, China

Prof. Dr. Seppo Vainio

Biocenter Oulu, Laboratory of Developmental Biology, Faculty of Biochemistry and Molecular Medicine, Borealis Biobank of Northern Finland, InfoTech, University of Oulu, Oulu, Finland

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
