# Molecular Mechanisms of Endocrine-Disrupting Chemicals (EDC) Action in the Pathogenesis of Human Diseases

### Message from the Guest Editor

This Special Issue is dedicated to all aspects of Endocrine-disrupting chemicals (EDC) impact on human health and, in particular, EDC contribution to the pathogenesis of diseases in the context of new therapeutic strategies. When considering your submission, please keep in mind that IJMS is a journal of molecular science. However, submissions of clinical studies with biomolecular experiments or pathological research with case sample data are welcomed.
