

Special Issue

Advances in Molecular Genetics of Brain Tumors

Message from the Guest Editors

Dear colleagues, The Special Issue intends to elucidate the diversity of problems and solutions behind brain tumors. The topics will cover events - molecular genetics, signaling pathways governing the mechanisms of tumor formation and invasion, DNA methylation, predictive biomarkers, diagnostic improvement, potential therapeutic targets, metastasis and recurrence, but also the difference in therapeutic response of specific clinical subtypes. Studies that bring results of large-scale analyses and system biology are also welcome. Besides the known driver genes and their mutations, some of which have already been comprehensively characterized, the investigation of genes harboring passenger mutations that are less known molecular players and probably contribute to tumor heterogeneity will also be one of the focuses of the issue. The issue welcomes original work unraveling novel innovative studies on the genetics of brain tumors, but also reviews with a perspective points of view and interesting cases that can shed light on novel genetic events. Prof. Nives Pećina-Šlaus

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Inorganic Chemistry)
