Gene Expression and Molecular Targets of Oral Cancer and Periodontal Diseases

Message from the Guest Editor

Recent evidence has shown that molecular targets in various cancers are very important. Abnormalities of p53 and cyclinD1 may play important roles in the tumor progression of oral cancer. However, the molecular targets in oral cancer have not been well understood. Therefore, we strongly encourage understanding the molecular target of oral cancer. We could supply new molecular therapy and chemotherapy in the future. Furthermore, oral diseases such as periodontal diseases and ameloblastoma are welcome. Severe inflammation for long periods may promote oral cancer. We widely accept studies on oral lesion, involving gene expression and molecular targets. Topics include, but are not limited to the following: Molecular pathways/target of oral cancer and diseases.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
