Proton-Pump Inhibitors (PPIs)

Message from the Guest Editor

Proton-pump inhibitors (PPIs) are used by up to 10% of the population in Western countries. They virtually take away a biological function, the production of acidic gastric juice. Normally, gastric acidity is maintained by the *Helicobacter pylori* regulated release of gastrin from the G cell. Drug-induced hypoacidity induces hypergastrinemia. Gastrin stimulates the ECL cell to release histamine and to proliferate. Based on old animal studies, there has been a fear that long-term profound acid inhibition would also induce gastric neoplasia in humans. In recent years, there have been reports substantiating this view. The present issue of the *International Journal of Molecular Sciences* will explore all facets related to the safety of PPIs.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
