

## Special Issue

# Pannexin- and Connexin-Based Channels under Normal and Pathological Conditions

### Message from the Guest Editors

Connexins and pannexins form non-selective membrane channels in most cell types. Few examples present only connexins or pannexins. Both channels are permeable to ions and small molecules and their expression and/or activity are elevated under physiological and pathological conditions. In several cases the first sign of an abnormal condition is the permeabilization of the cell membrane and reduction in membrane potential. To a great extent, these changes are explained by the upregulation or de novo expression of connexins and/or pannexins. Thus, channels formed by these proteins are potential therapeutic targets. In this Special Issue the role of these channels in the etiopathogenesis of several diseases is presented. Prof. Dr. Jean X. Jiang

### Guest Editors

Prof. Dr. Juan Carlos Saez

1. Centro Interdisciplinario de Neurociencia de Valparaíso CINV, Instituto de Neurociencia, Facultad de Ciencias, Universidad de Valparaíso, Chile
2. Alameda 340, Laboratorio de Fisiología, Facultad de Ciencias Biológicas, Pontificia Universidad Católica de Chile, Santiago, Chile

Prof. Dr. Jean Jiang

Department of Biochemistry and Structural Biology, University of Texas Health Science Center, San Antonio, TX 78229, USA

### Deadline for manuscript submissions

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle  
Marche, Via Ranieri 65, 60100 Ancona, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Inorganic Chemistry)
