The Role of the Tumor Microenvironment in Cancer

Message from the Guest Editor

The tumor microenvironment (TME) plays an important role in the initiation, development, and progression of cancer. There is evidence that the TME promotes resistance to therapy. The TME consists of both immune and non-immune cells as well as cytokines, chemokines, and growth factors that promote the malignant cells. Therefore, an understanding of the interplay between cancer cells and cells in the TME is fundamental to the development of novel therapies that target the cancer cells and the supportive signals from the TME. In this Special Issue “The Role of the Tumor Microenvironment in Cancer”, we will discuss the molecular mechanisms in the TME that are involved in promoting cancer cells. Dr. Sherine F. Elsawa

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
