

## Special Issue

# Vitamin D and Other Molecules in Development and Biological Profiling of Cancer

### Message from the Guest Editors

This Special Issue on “Vitamin D and Other Molecules in the Development and Biological Profiling of Cancer” covers a wide range of new research topics and current reviews in the field of molecular stratification of cancer risk, with a particular focus on the role of vitamin D. We welcome original experimental research, review articles, and commentary articles leading to a better understanding of the biological mechanisms driving the origins and progression of cancer. The importance of the microenvironment in which a cancer develops is also relevant for this Special Issue. We value new outlooks on the molecular mechanisms of metabolic and signaling pathways playing key roles in the development of cancer. Potential novel therapeutic targets continue to be a particular point of interest.

---

### Guest Editors

Prof. Dr. Wojciech Józwicki

Department of Tumour Pathology and Pathomorphology in Department of Oncology, Faculty of Health Sciences, Nicolaus Copernicus University Collegium Medicum in Bydgoszcz, Romanowska Street 2, Bydgoszcz 85-796, Poland

Prof. Dr. Krzysztof Roszkowski

Department of Oncology, Collegium Medicum, Nicolaus Copernicus University, Lukaszewicza str. 1, 85-821 Bydgoszcz, Poland

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
