A Commemorative Special Issue in Honor of Prof. Dr. Luigi Fabrizio Rodella: The Founder of the Italian Society of Orofacial Pain

Message from the Guest Editor

This Special Issue, dedicated to the founder of *SISDO*, Prof. Dr. Luigi Fabrizio Rodella, aims to honor his *memory*, providing the latest findings concerning the basic mechanisms (genetic, molecular biology, electrophysiology or imaging) and medical treatments of several pain models. Original research articles, reviews and case reports discussing experimental studies, diagnostic purposes, as well as different therapies are welcome. Moreover, papers dealing with various types of pathology that mimic orofacial pain crucial for timely diagnosis, treatment and improved prognosis, will be considered.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
