

Special Issue

Autoimmunity and COVID-19

Message from the Guest Editor

COVID-19 was found to be an autoimmune virus inducing a panoply of autoantibodies as well as diversity of autoimmune diseases. Moreover, it was also noted to induce exacerbations of autoimmune conditions. The mechanisms by which the virus achieves this are complex and entail hyperstimulation of the immune system and molecular mimicry. This Special Issue is dedicated to the many facets of the relationships between the virus, the immune system, and the induction of autoimmunity. Series of cases are invited as well as mechanisms by which diseases are induced by the virus. The subject of post-COVID syndrome will also be discussed with all its clinical manifestations and autoimmune aspects, especially of the autonomic nervous system; papers dedicated to ways of therapy of this prolonged condition are welcome as well. Prof. Dr. Yehuda Shoenfeld

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Inorganic Chemistry)
