

Special Issue

Molecular Insight into Cardiovascular and Brain Aging

Message from the Guest Editors

There is a keen interest in understanding the molecular basis of aging and identifying a potential strategy to help with healthy and natural aging. This Special Issue aims to collect all innovative research and review articles that address various aspects of the molecular mechanisms underpinning age-related modifications responsible for the onset of CVD and neurodegenerative disorders.

- aging
- brain
- cardiac
- vascular
- neurodegeneration
- cardiovascular disease
- mechanisms

Please feel free to contact us or Vera Cao if you have an interest. And we will provide a special discount for your submission.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
