

## Special Issue

# The Role of microRNA in Human Diseases

### Message from the Guest Editor

This Special Issue focuses on the roles of aberrant miRNA expression in different human diseases as well as the characterization of putative miRNA targets for therapeutic intervention. In particular, studies involving advanced deep sequencing methods and novel bioinformatics algorithms for miRNA research (focus on a molecular level) are highly welcomed. The formats for submission include original research reports, reviews, and communications.

### Guest Editor

Dr. Andrey Turchinovich

1. Department of Cardiovascular Research, Heidelberg University, 69120 Heidelberg, Germany
2. Heidelberg Biolabs GmbH, 69120 Heidelberg, Germany

### Deadline for manuscript submissions

closed (15 January 2023)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
