Molecular Research in Urology

Message from the Guest Editor

The unmet needs in prostate cancer diagnosis and therapy are diverse; there is an urgent need for biomarkers that can be used for the early diagnosis of patients with clinically significant prostate cancer. Significant steps forward are made and are reviewed in this issue. Once metastasized, there is still no effective treatment, let stand alone a curative therapy. A better understanding of sustained androgen receptor signaling in CRPC has now led to more effective therapies. Apart from a better insight in the molecular aspects of prostate carcinogenesis and -progression, we need to understand the tumor cell biology. Identification of cancer initiating cells and therapies targeted to eradicate these population(s) are the way forward to combat this disease.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
