

Special Issue

Molecular Research and Treatment of Breast Cancer

Message from the Guest Editor

Breast cancer is one of the most frequently diagnosed malignancies in the female population. Due to its heterogeneity, the molecular mechanisms governing breast cancer development and progression are complex and impact prognosis and treatment efficacy. This Special Issue of *IJMS* will welcome original research and review articles with the aim of providing an overview of advances on the molecular bases of breast cancer. Research within this Issue will focus on the molecular aspects of breast cancer development, progression and invasion. The development and discovery of therapeutic agents, as well as strategies that increase the efficacy of standard therapy, will also be covered. Additionally, research related to therapy resistance and approaches that target tumor escape mechanisms will be included in the scope of this Issue.

Guest Editor

Dr. Anna Kawiak

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
