Special Issue

Radiation in Multimodal Tumor Immune Therapies – Mechanisms and Application

Message from the Guest Editors

After the great success of the special issue on "Partnership of Radiotherapy and Immunotherapy", in this Issue, we will continue to focus on how radiation modulates the immune system, and thereby contributes to the induction of anti-tumor immune reactions, and/or creates a micro-environment that calls for the addition of distinct immune therapies. On the other hand, the modes of action of immunotherapies should be picked up and put in connection with radiation responses. In this context, stratification markers for a combination of radiotherapy and immunotherapy should be suggested, validated, and critically discussed. We are looking forward to receiving submissions about the basic science and translational workings of a immunooncology society.

Guest Editors

Prof. Dr. Udo S. Gaipl

Head of Translational Radiobiology, Department of Radiation Oncology, Universitätsklinikum Erlangen, Erlangen, Germany

Dr. Benjamin Frey

Translational Radiobiology, Department of Radiation Oncology, Universitätsklinikum Erlangen, Friedrich-Alexander-Universität Erlangen-Nürnberg, Universitätsstr. 27, 91054 Erlangen, Germany

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
