

Special Issue

Artificial Intelligence and Neural Networks at the Intersection of Society, Business, and Science

Message from the Guest Editor

This Special Issue "Artificial Intelligence and Neural Networks at the Intersection of Society, Business, and Science" seeks to gather intra-field and cross-field insights on the new tasks, methods, and applications of AI, ML, and ANNs. We welcome submissions that represent the latest advances in ML, deep learning, and ANN research, as well as those that examine AI and its applications from the perspectives of management, social science, and the humanities. In order to foster cross-field discussions and debates around AI, we particularly encourage contributions from interdisciplinary teams.

Guest Editor

Dr. W. G. Will Zhao

Faculty of Business Administration at the Lakehead University, Ontario, Canada

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

CiteScore - Q2 (Information Systems)
