

Special Issue

Advanced Information Technology, Big Data and Artificial Intelligence

Message from the Guest Editors

This Special Issue encourages authors from academia and industry to submit new research results in Advanced Information Technology, Big Data, and Artificial Intelligence. It provides opportunities for the delegates to exchange new ideas and application experiences, to establish business or research relations, and to find global partners for future collaboration. This Special Issue will also present extended versions of selected papers presented at the 10th Joint International Information Technology and Artificial Intelligence Conference (ITAIC 2022). The aim of ITAIC 2022 is to provide a platform for researchers, engineers, academicians, as well as industrial professionals from all over the world to present their research results and development activities in Information Technology and Artificial Intelligence.

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

CiteScore - Q2 (Information Systems)
