

Special Issue

Computer Modelling in Decision Making (CMDM 2019)

Message from the Guest Editors

The Fourth Workshop Computer Modelling in Decision Making (CMDM 2019) will be held in Saratov State University, Saratov, Russia, 14–15 November 2019. The workshop's main topic is computer and mathematical modelling in decision making in finance, insurance, banking, economic forecasting, investment and financial analysis. CMDM 2019 brings together researchers from different scientific communities working on areas related to computer modelling in decision making. The variety of scientific topics ranges from machine learning for decision making; data mining and econometrics; financial and economic network analysis; urban network analysis; mathematical economics; optimization models; other fields of computer science. The papers invited for submission to this Special Issue should extend the scope of the contributions appearing in the conference proceedings and should include significantly new material. We hope that they will examine the latest problems and advances within the information-based decision making.

Guest Editors

Dr. Sergei Sidorov

Faculty of Mechanics and Mathematics, Saratov State University, Saratov 410026, Russia

Dr. Dmitry Pavlyuk

Department of Mathematical Methods and Modelling, Transport and Telecommunication Institute, Riga, LV-1019, Latvia

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

CiteScore - Q2 (Information Systems)
