

Special Issue

Online Experimentation and the IoE

Message from the Guest Editors

This Special Issue will be publishing extended versions of the most relevant papers presented at the *exp.at'19*, dedicated to online experimentation. *exp.at'19* aims to bring together engineers, researchers and industry and health professionals, promoting interactions and contributing to the advancement of science and technology in remote and virtual experiments, smart devices, communication protocols, web interface design, intelligent tutoring systems, collaborative digital environments and virtual and augmented reality, haptics and sensorial device interactions. Many of these subjects are in line with the needs of Industry 4.0. Automotive control and online experimentation in control, air quality monitoring, remote and digital pneumatics, ocean monitoring, immersive systems and sensorial stimulation, machine learning applications, smart technologies and interactive media for health, online resources in biomedical engineering and online experimentation in science and engineering education are examples of special focus tracks that were covered at *exp.at'19*.

Guest Editors

Prof. Dr. Maria Teresa Restivo

Department of Mechanical Engineering, University of Porto, 4099-002 Porto, Portugal

Dr. Alberto Cardoso

Department of Informatics Engineering, University of Coimbra, Pólo II da Universidade de Coimbra, 3030-290 Coimbra, Portugal

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

CiteScore - Q2 (Information Systems)
