

Special Issue

Cyber-Security in Smart Grid

Message from the Guest Editors

This Special Issue aims to foster the dissemination of state-of-the-art research in cyber security for the smart grid, as well as address the privacy concerns of real-time and fine-grained sensing information in such a system. Topics of interest include (but are not limited to) the following subject categories:

- Theoretical Foundation and Models for Smart Grid Security and Privacy
- Big Data Analysis in Smart Grid Security and Privacy
- Security of Integrating Renewable Energy Resources in the Smart Grid
- Security of Electric Vehicles in the Smart Grid
- Security of Energy Management in the Smart Grid
- Secure Real-Time Communication in the Smart Grid
- Machine Learning for Smart Grid Security and Privacy
- Integrated Simulation and Testbed and Case Studies for Smart Grid Security and Privacy
- Attack Detection, Mitigation and Attribution in the Smart Grid

Guest Editors

Prof. Dr. Wei Yu

Dr. Linqiang Ge (Editor)

Dr. Guobin Xu (Editor)

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

CiteScore - Q2 (Information Systems)
