Applications in Information Technology

Message from the Guest Editors

Nowadays, information technology strongly influences our lives. Wide use of mobile devices generates a huge demand for new types of applications. To develop these applications, a new style of “vision” is needed from the researchers. The main objective of the 2nd Conference on Applications in Information Technology (<http://kspt.icc.spbstu.ru/conf/icait-2016/>) is to encourage young scientists to participate actively in open discussions with their colleagues. This conference is to discover new names in the next generation of researchers. Senior

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

CiteScore - Q2 (Information Systems)
