

Special Issue

New Trends and Challenges in Intelligent Transportation Systems Optimisation, Modeling and Security

Message from the Guest Editors

Special Issue "New Trends and Challenges in Intelligent Transportation Systems Optimisation, Modeling and Security" has been EXTENDED! This special issue aims to gather the last trends and challenges raised in different research communities working on intelligent transportation systems, with a particular focus on the studies dealing with the development of tools issued from Operational Research, Artificial Intelligence, security, and traffic control fields:

- intelligent transportation system
- transportation technologies
- transport management
- connected vehicles

Guest Editors

Prof. Dr. Nacima Labadie

LOSI - Optimization of Industrial Systems Laboratory, University of Technology of Troyes | UTT, Troyes, France

Prof. Dr. Lyes Khoukhi

ENSICAEN, GREYC Lab, Normandie University, Normandy, France

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

CiteScore - Q2 (Information Systems)
