

Special Issue

Emerging Research in Urban Computing and Intelligent Transport Systems

Message from the Guest Editors

The Special Issue "Emerging Research in Urban Computing and Intelligent Transport Systems" has been extended! We welcome submissions of original, unpublished, and novel in-depth studies that make significant methodological or applied contributions to the field. Potential topics of interest include, but are not limited to, the following topics:

- Urban computing based on artificial intelligence algorithms;
- Urban computing based on statistical methods;
- Solutions for sustainable transportation/urban development;
- Data integration and analysis;
- Information collection and processing;
- Image processing applications in ITS;
- Autonomous vehicles;
- Traffic flow management and control;
- Innovative algorithms in urban computing/ITS;
- Networks and Communications in ITS;
- Public transportation system technologies;
- Public transport logistics;
- Urban emergency and incident management;
- Urban demand management;
- ITS industrial applications;
- Urban health check.

Guest Editors

Prof. Dr. Jianbo Li

Dr. Junjie Pang

Dr. Antonio Comi

About the Journal

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

CiteScore - Q2 (Information Systems)
