

Special Issue

Inspection, Assessment and Retrofit of Transport Infrastructure

Message from the Guest Editors

In this Special Issue, we request high-quality original research articles focused on the state-of-the-art techniques and methods addressing the inspection, assessment, and upgrading of old bridge infrastructure. We welcome both theoretical and applied papers of high technical standard across various branches in construction sector, thus facilitating an awareness of techniques and methods applicable in bridges that may be relevant to other structures. Topics of interest include, but are not limited to:

- Advances in inspection, sensing and structural health monitoring (SHM) methods and technologies for bridges;
- Advances in assessment methods;
- New materials and techniques for strengthening and repair of existing bridges;
- Long-term behavior, environmental durability, and fire performance of strengthening and repair systems;
- Design codes and guidelines;
- Recent case studies;
- Monitoring and field measurements on rehabilitated bridges;
- Advances in management of maintenance works and planning.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Editor-in-Chief

Dr. Pedro Arias-Sánchez

Applied Geotechnologies Group, Department of Natural Resources and Environmental Engineering, School of Mining Engineering, University of Vigo, 36310 Vigo, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Civil) / CiteScore - Q1 (Building and Construction)
