Message from the Editor-in-Chief

Arthropods are a diverse and abundant group of animals that are important to a variety of research dictates. For example, hexapods act as bio-indicators of ecosystem function and pest status and serve as model systems for questions concerning physiology, embryology, genetics, and social interaction. The editorial board and staff at *Insects* is committed to providing contributors an open access forum to showcase objective and innovative research as well as succinct review articles. Our journal is dedicated to providing timely and thorough review of qualified submissions and we welcome you to submit a contribution.

Aims

Insects (ISSN 2075-4450) is an international, peer-reviewed open access journal of entomology published by MDPI online monthly. It publishes reviews, research papers and communications related to the biology, physiology, behavior and management of arthropods as well as their interactions with human societies, plants, and ecosystem services. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers. The full experimental details must be provided so that the results can be reproduced. Electronic files regarding the full details of the experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

Scope

- molecular entomology
- applied entomology
- systematic entomology
- pest management
- biology, physiology, ecology and pathology of insects
- evolution of insects
- insects and plants interaction
- insects and public health
- insects and environment

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

2023 Impact Factor: 2.7

(*Journal Citation Reports* - Clarivate, 2024)

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Journal Rank

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

Coverage by Leading Indexing Services

Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, and other databases

Rapid Publication

A first decision is provided to authors approximately 16.7 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2024)
