

## Special Issue

# Fly Biology, Ecology, Behavior and Management

### Message from the Guest Editors

Diptera, known as the “true” flies, is one of the most numerous and diverse orders of insects, comprising about 125,000 species widely distributed throughout the world. These insects play an ecologically relevant role and are of significant importance to humans. Just as certain flies act as pollinators, decomposers, predators, and parasitoids, others are vectors of human diseases and represent serious pests of agriculture, stables, and barnyards. Several dipterans are mostly involved in forensic legal investigations. This Special Issue invites the submission of original research articles and reviews to deepen the biological, ecological, and behavioral knowledge of this diversified insect group, and to cover management strategies for both pest and disease vector species. This involves a wide range of studies, such as life history, physiological aspects, reproduction, demographic traits, ecology and evolution of behavioral patterns, population fluctuation and dynamics, diversity, abundance, trophic relationships, host range and status, natural enemies, integrated pest management, and control tactics.

### Guest Editors

Dr. Sérgio M. Ovruski

Laboratorio de Investigaciones Bioecológicas de Moscas de la Fruta y sus Enemigos Naturales (LIEMEN), División Control Biológico de Plagas, PROIMI Biotecnología, CCT NOA Sur-CONICET, Avda, Belgrano y Pje, Caseros, San Miguel de Tucumán T4001MVB, San Miguel de Tucumán, Argentina

Dr. Flávio Roberto Mello Garcia

Departamento de Ecologia, Instituto de Biologia, Zoologia e Genética, Universidade Federal de Pelotas, Pelotas 96010900, RS, Brazil

### Deadline for manuscript submissions

closed (15 November 2023)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Brian T. Forschler  
Department of Entomology, University of Georgia, 413 Biological  
Sciences Building, Athens, GA 30602-2603, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,  
PMC, PubAg, and other databases.

##### Journal Rank:

JCR - Q1 (Entomology) / CiteScore - Q1 (Insect Science)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 17 days after  
submission; acceptance to publication is undertaken in 2.8  
days (median values for papers published in this journal in  
the first half of 2024).
