

Special Issue

Editorial Board Members' Collection Series on Particle Accelerators

Message from the Guest Editors

With this Special Issue dedicated to particle accelerators, we would like to invite experts in the field of accelerators to submit contributions in the form of expert comprehensive reviews or research articles addressing particle accelerators. The scope of this Special Issue includes, but is not limited to, the following topics:

- High-Luminosity LHC and future LHC upgrades;
- Future Circular Colliders (FCC, CEPC, etc.);
- Future Liner Colliders (ILC, CLIC, etc.);
- Muon Colliders;
- Application of particle accelerators in medicine, biology, industry, etc.
- Particle accelerators for free-electron laser research.

Guest Editors

About the Journal

Message from the Editor-in-Chief

The realization of dedicated instrumentation has always been a collateral aspect of experimental research. In addition, many groups dedicate efforts and resources solely to the development of new devices, sensors, equipment and large infrastructure, theoretical and numerical studies, and novel experimental methodologies. With Instruments we wish to address both established and emerging communities, also to favor the creation of innovative trans-disciplinary approaches. We see Instruments as an exciting high-impact journal that will soon hold a leading position in disseminating cutting edge scientific and technological research.

Editor-in-Chief

Prof. Dr. Antonio Ereditato

Enrico Fermi Institute, The University of Chicago, Chicago, IL 60637,
USA

Author Benefits

High Visibility:

indexed within Scopus, Inspec, CAPlus / SciFinder, INSPIRE, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.9 days after submission; acceptance to publication is undertaken in 7.2 days (median values for papers published in this journal in the first half of 2024).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
