

Special Issue

Physics and Applications of High Brightness Beams

Message from the Guest Editors

This special issue will publish the selected papers from the HBB 2019 Conference (Physics and Applications of High Brightness Beams, Rethimno, Crete, April 8–12, 2019). This proceedings issue will document the rapid developments achieved during the last several years in the high brightness beam community. To learn more details about HBB 2019, please visit the conference website, <https://conferences.pa.ucla.edu/hbb-2019/index.html>.

Guest Editors

About the Journal

Message from the Editor-in-Chief

The realization of dedicated instrumentation has always been a collateral aspect of experimental research. In addition, many groups dedicate efforts and resources solely to the development of new devices, sensors, equipment and large infrastructure, theoretical and numerical studies, and novel experimental methodologies. With Instruments we wish to address both established and emerging communities, also to favor the creation of innovative trans-disciplinary approaches. We see Instruments as an exciting high-impact journal that will soon hold a leading position in disseminating cutting edge scientific and technological research.

Editor-in-Chief

Prof. Dr. Antonio Ereditato

Enrico Fermi Institute, The University of Chicago, Chicago, IL 60637,
USA

Author Benefits

High Visibility:

indexed within Scopus, Inspec, CAPlus / SciFinder, INSPIRE, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.9 days after submission; acceptance to publication is undertaken in 7.2 days (median values for papers published in this journal in the first half of 2024).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
