Optimizing Present and Future Therapeutic Choices for Treatment and Management of Chronic Inflammatory Bowel Diseases—2nd Edition

Message from the Guest Editor

The management of inflammatory bowel diseases (IBDs) has been revolutionized in recent years due to the approval of several new therapeutic options involving new inflammation pathways. However, we must understand how to choose the correct drug for a patient. The main goal of future IBD research would be to identify new drug-specific biomarkers, which is similar to oncological management. We invite you to visit our website to access the first volume of this Special Issue, which is available at the following link:

https://www.mdpi.com/journal/jcm/special_issues/X86D52SV7A This Special Issue, in the *Journal of Clinical Medicine*, aims to place a spotlight on studies that are able to improve our knowledge of IBDs. For more information, please click [here](#).

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
