

## Special Issue

# Global Expert Views on Aortic Valve Repair and Replacement

### Message from the Guest Editor

The treatment of aortic valve pathologies has undergone important changes in recent years. Open cardiac surgery has been giving way to less aggressive techniques, including transcatheter or surgeries with a minimally invasive approach and with the intention of preserving the aortic valve in cases of valve regurgitation. These new techniques have managed to improve the clinical results of patients and reduce the risk of complications. All of these modern techniques require prior in-depth research that includes several imaging techniques, such as transesophageal echocardiography, multidetector cardiac tomography or cardiac magnetic resonance. The intention of this Special Issue is to showcase state-of-the-art techniques for aortic valve repair and replacement as well as the imaging techniques required for the correct planning of these procedures.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
