

## Special Issue

# Corneal Diseases and Corneal Transplantation: Current Updates and Perspectives

### Message from the Guest Editors

This Special Issue aims to compile a comprehensive collection of peer reviewed articles exploring various topics related to corneal diseases and transplantation. We invite original articles or reviews focusing on, but not limited to, the following potential topics: prevalence and epidemiology of corneal diseases, advancements in diagnostic technologies and imaging techniques, and corneal transplantation outcomes and techniques. We are particularly interested in manuscripts addressing the latest research on corneal endothelial, novel approaches to improve graft survival, the impact of donor and recipient factors on transplantation outcomes, and the application of artificial intelligence in corneal disease diagnosis and management. Additionally, insights into patient quality of life post-transplantation and strategies for addressing challenges in global access to corneal transplantation are highly welcome. We are honored to invite contributors to submit their studies, helping to advance the field and improve patient care.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024).
