

## Special Issue

# Clinical Diagnosis and Treatment of Epilepsy

### Message from the Guest Editors

Epilepsy is one of the most common chronic neurological diseases and it can lead to serious consequences in the lives of affected people, accounting for a significant proportion of disability-adjusted life years. About 70% of people with epilepsy achieve seizure control with pharmacological anti-seizure treatment. Nowadays, the broad spectrum of anti-seizure medications allows a more “personalized” treatment approach with the aim of identifying the most efficacious and best-tolerated drug in any individual case. In patients with focal epileptogenic zones located outside eloquent cortical areas of the brain and people with selected developmental and epileptic encephalopathies, epilepsy surgery and precision medicine represent the treatments of choice. The present Special Issue aims to collect experimental findings, innovative single reports and case series, clinical studies, critical reviews, and outside-the-box viewpoints that focus on the diagnosis, management, treatment, and prognosis of epilepsy.

### Guest Editors

Dr. Angela La Neve

Department of Basic Medical Sciences, Neurosciences and Sense Organs, University of Bari, Bari, Italy

Prof. Dr. Simona Lattanzi

Department of Experimental and Clinical Medicine, Marche Polytechnic University, Ancona, Italy

### Deadline for manuscript submissions

25 April 2025

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
