

Special Issue

Clinical Updates on Cardiomyopathies and Heart Failure

Message from the Guest Editor

Scientific knowledge on the field of cardiomyopathies and heart failure is evolving at a breathtaking speed, as evidenced by the numerous guidelines recently published. In the first comprehensive guideline on cardiomyopathies, published in 2023 by the European Society of Cardiology (ESC), it was recognized that although there have been major advances in the genetics, diagnosis, and treatment of patients with cardiomyopathy over the last few years, there are a number of areas where robust evidence is still lacking. These topics require attention in future clinical research, including cardiomyopathy phenotypes, epidemiology, integrated patient management, patient pathway, genetics, and general principles in management. This Special Issue of the *Journal of Clinical Medicine* will focus on clinical updates on cardiomyopathies and heart failure and welcomes both original research articles and review papers that deal with clinical advances in cardiomyopathies and heart failure.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024).
