

## Special Issue

# Polytrauma Management under Special Circumstances: Pediatric Trauma, Trauma in Pregnancy and Geriatric Trauma

### Message from the Guest Editors

In recent decades, there have been improvements made in the field of traumatology and orthopaedics thanks to scientific research findings following major trauma. While the mean age of trauma patients is increasing, there is just a small amount of knowledge about different treatment algorithms for this population. Within the broad spectrum of patients treated in traumatology, injured children and pregnant women suffering from polytrauma need interdisciplinary treatment strategies and require specific treatment. Therefore, this Special Issue focuses on the trauma within these special groups of patients, aiming to provide a selection of current scientific and surgical recommendations for clinical practice. The researchers in this field are encouraged to submit an original article or review to this Special Issue.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
