

Special Issue

Hearing Disorders: Diagnosis, Management, and Future Opportunities: 3rd Edition

Message from the Guest Editor

We are glad to invite you to participate in the 3rd Edition of our Special Issue about Hearing Disorders. Building upon the resounding success of the previous two editions, this edition aims to continue fostering innovation and knowledge dissemination in this Hearing loss field. Hearing loss represents one of the most wide-ranging disabilities, affecting more than 5% of the world's population. Different types of hearing loss, including conductive and sensorineural hearing loss, may lead to serious hearing impairments in children and adults. Diagnosis and management continue to be challenging for hearing disorders such as chronic otitis media, otosclerosis, cholesteatoma, congenital or acquired sensorineural hearing loss, sudden sensorineural hearing loss, autoimmune or metabolic hearing loss, and otogenic facial palsy. Electrophysiology and neuroscience approaches are needed to elucidate the diagnostic dilemmas in otology and neurotology. New treatment options will be discussed to improve potential methods of hearing restoration. We especially encourage submissions concerning hearing aids, cochlear/ vestibular/ auditory brainstem implantation, middle ear surgery, and stapedotomy.

Guest Editor

Dr. George K. Psillas

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
