Current Concepts in the Diagnosis and Treatment of Musculoskeletal Tumors

Message from the Guest Editor

Musculoskeletal tumors can originate in bone or soft tissues. Primary benign and malignant bone tumors are uncommon, and most often affect children and young adults. Benign lesions are detected incidentally on imaging, although some patients present general symptoms such as pain or swelling. Sarcomas account for about 1% of all cancers. The management of musculoskeletal tumors requires a multidisciplinary team from the time of diagnosis through to the medical treatment, recovery, and rehabilitation. The oncologic outcome has improved in recent decades thanks to innovation in chemotherapy, radiation, and surgical techniques.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
